### Apple OSX (i.e. Mac computer)

- Click on the link provided on 29ernorthamerican.org. This link is to the Google calendar which all the events have been programmed into.
- OSX Calendar program will pop up a window such as the one below. From the pull down list, select "New Calendar" and then click "OK".

- A new calendar will be added to your Calendar program which is a subscription to the 29er NA Master calendar. When the Google calendar is updated, the changes will be reflected in your own Calendar automatically. You can set the frequency at which the updates occur. You can also edit the name of the calendar, the color of items in the calendar, etc.

### Microsoft Outlook 2007

- Start the Outlook program and go to Tools->Account Settings->Internet Calendars->New...
